*80% of consumers use search engines to find local information*

## Why You Need Accurate Listings

Search engines trust business info that is consistent across numerous listing sites. That means **businesses with plenty of accurate listings improve their chances of showing up in local search.**

Four of five consumers use search engines to find local information such as a business' address, hours of operation and directions. Business listings give consumers that information. As a result, **local searches lead 50% of mobile visitors to visit the business they searched in less than 24 hours.**<sup>1</sup>
